

In 2018, the Cayman Cigar Company was created to revive and honor the lost art of boutique tobacco farming, and the handcrafted creation of the country’s first national tobacco export; a small production, hand-rolled, top quality premium cigar. ***Cayman Cigar Company is the only premium cigar maker in the world that donates 100% of net profits to charity.*** Many crops, including tobacco, are grown at Beacon Farms, located nearby on Frank Sound Road. The farm is the center of our nonprofit organic and sustainable agricultural operation, planting “seeds of change” while creating jobs and growing independence for native Caymanians.

Our tobaccos and signature blends are hand selected for quality and superiority, then fashioned into premium cigars while remaining true to traditional artisan blending and rolling methods, under the direction of Torcedora (Master Roller) Barbara Garcia.
